

Science of Life

Introduction

Freedom of Choice =
Intentional Quantum Change

Freedom of Choice

- Freedom of Choice is the Essence of Life
- Freedom of Choice operated Degrees of Freedom in Matter
- The Essence of Life is the Quintessence of Alchemy
- The Quintessence of Alchemy is a Quantum flip

Quantum (Phase) Change

- A “Quantum Change” is a change of Phase
- Tetraionics describes its EM Properties
- EM fields can thereby be described
- These Form and Move Matter

Tetryonics

- The geometry of a quantum
- The geometry of electromagnetic fields
- The geometry of the Tetryon
- The geometry of Matter and Life (KEM, BEM)

Planck / Einstein

- Planck described *Quanta*; a.k.a. Bosons
- Einstein described *Photons*
- Einstein addresses a light wave
- Planck describe the change in a wave node

Fields & Boundaries

- Phase change propagation creates 'reality'
- Continuation = Symmetry-Break = Field
- Reflection = Symmetry = Boundary
- Boundary and Field are "Dual"

Fields and Matter

- Phase = Phase information in Formation
- Phase propagation = Shock Wave = Energy
- Phase continuation = Travelling Wave = Time
- Phase resonance = Standing Wave = Space

Electromagnetism & Materialisation

- Photon-Leap {Information}
- Electron-Leap {Atoms}
- Electron- Oscillation {Molecules}
- Electron-Bonding {Matter}

Phase Complexification

- Phase Change = 0D
- Shock Wave = 1D
- Travelling Wave = 2D
- Standing Wave = 3D

- Consciousness = 0D
- Energy = 1D (Singularity)
- Time = 2D (Loop)
- Space = 3D (Structure)

- Field Theory {Phase} 0D
- Quantum Theory {Atoms} 1D
- Relativity Theory {Molecules} 2D
- Classical Theory {Matter} 3D

- 0D = Point
 - 1D = Line
 - 2D = Plane
 - 3D = Volume
-
- *Each next dimension adds an 'orthogonal' extension.*

4D Vortex

- Sink Point Point 0D
 - Streamline Line 1D
 - Surface Surface 2D
 - Volume Volume 3D
-
